ALEXANDER
LAMONT

Foreword by Martin Waller
Founder and CEO of Andrew Martin

There are only a handful of designers whose work is instantly and unmistakably recognisable. Alex Lamont is one.

Alex Lamont was born into a plunge pool of inspiration and stimuli. His father, Victor, was the original designer, importer and trader of Asian and African handicrafts long before anyone had heard of East meets West. Victor's Global Village was bringing the wonderfully exotic to the staid homes of the 1970s and 80s on an epic scale. Of course, this multi-cultural legacy helped to shape Alex and his decision to study Thai and move to Chiang Mai. But Alex then carved his own fiercely individual path, building from the ground up, with his wife Alexandra, a company that is truly unique in the world.

Embracing, resurrecting and developing the astonishing skills of South East Asia's craftspeople, Alex has forged a distinctive design sensibility. His marshalling of unexpected materials into coveted design pieces has made him the go to hub for the world's most sophisticated and demanding clientele. It could be straw or vellum or shagreen, it doesn't matter! Every piece that comes out of Alex's workshop is a treasure. In my almost 50 years of designing, buying and collecting, I look back at the pieces that I have acquired from Alex with the greatest of joy.

"Per aspera ad astra; through hardship to the stars"

Seneca, Roman philosopher and playwright

Couture is Alexander Lamont's collection of furniture and lighting. Each piece is infused with vitality, soul and character, evoking a journey of discovery. Our celebrated hand-worked pieces communicate a refined and playful elegance and a quest for perfection.

Inspired by deep traditions of craftsmanship from East and West, Alexander Lamont's pieces express a dedication to meticulous detail, beautiful materials and an aesthetic taste refined by a life lived between Asia and Europe.

This 2025 edition of Couture lighting incorporates the XXV collection marking a quarter-century of Alexander Lamont. XXV presents a group of sculptural illuminations each with its own unique artistic presence. Inspired by ideas of ancient Britain each piece is precise and ravishing in detail, tone and craft; and rich in natural materials brought to life in table and floor lamps, wall sconces, lanterns and ceiling lights to create a series of arresting lighting elements.

For twenty-five years Alexander Lamont has been creating furniture, lighting and objects that are made to fall in love with, that bring to their owners an artistic sensibility and a joyful communion with the great traditions of workshop excellence.

Paglia Lamps | Special Edition Shade

For our Paglia Lamps textile designer Anne Corbière created the richly textured shades in Kita handwoven fabric, expertly combining the rawness of natural Asian rattan with the refinement of linen and precious metallic woven threads. The special edition shade is the perfect continuation of the deeply ridged and textured base while adding the softness and lustre of golden threads.

Electrified

Cicada Lanterns

Timelessly sophisticated lamps in tall (electrified) and low (candle) sizes. These octagonal lanterns are made from Peking glass, also known as 'jade-cut' glass due to the time-consuming manual-polishing process. The base and top are bronze with a dark patina.

Moon Faceted Lantern

Moon Lanterns

Lanterns made from hand-blown Peking glass in white colour (sometimes called 'mutton fat white'). The glass has natural inclusions and bubbles that are inherent to this traditional technique and give uniqueness to each piece. Jars are blown and then laboriously polished by hand using jade-cutting methods. The tall Moon Globe Lantern has a smooth rounded surface while the lower Moon Faceted Lantern has eight angled rings.

Understanding the Materials

Each Alexander Lamont design is handmade from beautiful natural materials: straw marquetry, shagreen, parchment, bronze and copper, mica, calcite, marble, fine wood veneers, mother-of-pearl, beetle-wing.

As such they are living surfaces and each piece will vary in tone and texture according to their nature. Aspects of the material such as colour, lines, grain, tone or inclusions will all be subtly different for each piece. The techniques we use allow the artisans to express their skills and this too adds a unique aspect to different pieces.

Acquiring an Alexander Lamont work is just the beginning. Nature, time and exceptional craftsmanship enable each piece, if handled with care, to slowly evolve and grow more beautiful, creating heirlooms that can be passed to the next generation. Care instructions are available from our representatives

Adorning the Room

Alexander Lamont's accessory objects take an artistic approach to adorning the home. The Editions collection of curated objects presents striking, sculptural elements that are both functional and beautiful to behold; while our one-off and limited-edition Studio pieces exude refinement and individual artistic expression. Every object is made by hand in our workshops and lavished with our signature materials. These are the objects we touch and remember, the treasures that adorn the room.
